Kurzbeschreibung

WITH INTRODUCTIONS BY MARGARET ATWOOD AND DAVID BRADSHAW

Far in the future, the World Controllers have created the ideal society. Through clever use of genetic engineering, brainwashing and recreational sex and drugs all its members are happy consumers. Bernard Marx seems alone harbouring an ill-defined longing to break free. A visit to one of the few remaining Savage Reservations where the old, imperfect life still continues, may be the cure for his distress...

Huxley's ingenious fantasy of the future sheds a blazing light on the present and is considered to be his most enduring masterpiece. [Amazon.de](#)

"Community, Identity, Stability" is the motto of Aldous Huxley's utopian World State. Here everyone consumes daily grams of soma, to fight depression, babies are born in laboratories, and the most popular form of entertainment is a "Feelie," a movie that stimulates the senses of sight, hearing, and touch. Though there is no violence and everyone is provided for, Bernard Marx feels something is missing and senses his relationship with a young women has the potential to be much more than the confines of their existence allow. Huxley foreshadowed many of the practices and gadgets we take for granted today--let's hope the sterility and absence of individuality he predicted aren't yet to come. [Amazon.com](#)
